Introduction

Overview

AirPrint lets you wirelessly print photos, emails, web pages and documents from your iPad, iPhone and iPod touch without the need to install a driver.

■ For DocuPrint M225 z/M265 z:

AirPrint also lets you send faxes directly from your Macintosh computer without printing them (available for OS X v10.8 or later).

- 1 **Wired or wireless network**
- 2 **Telephone line**
- 3 **Your Fuji Xerox machine**
- 4 **Recipient's machine**

Hardware requirements

Supported operating systems

AirPrint is compatible with iPad (all models), iPhone (3GS or later) and iPod touch (3rd generation or later) devices running the latest version of iOS. For more information, see Apple's website: <http://support.apple.com/kb/HT4356>.

Network settings

In order to use AirPrint, your mobile device must connect to the wireless network to which your Fuji Xerox machine is connected. AirPrint supports wireless connections that use ad-hoc mode, infrastructure mode, or Wi-Fi Direct™ (supported models only).

To configure your mobile device for a wireless network, refer to your mobile device's user's guide. A link to your mobile device's user's guide on Apple's website can be found by tapping  in Safari.

Ad-hoc mode

Connect your mobile device to your Fuji Xerox machine without a wireless access point/router.

- 1 Mobile device
- 2 Wireless network machine (your Fuji Xerox machine)

NOTE

If your device's OS is iOS7, you must enable IPv6 for your Fuji Xerox machine when using AirPrint in Ad-hoc mode.

Infrastructure mode

Connect your mobile device to your Fuji Xerox machine through a wireless access point/router.

- When the Fuji Xerox machine is connected to the wireless access point/router using the machine's wireless feature:

- 1 Mobile device
- 2 Wireless access point/router
- 3 Wireless network machine (your Fuji Xerox machine)

- When the Fuji Xerox machine is connected to the wireless access point/router using a network cable:

- 1 Mobile device
- 2 Wireless access point/router
- 3 Network cable
- 4 Wired or wireless network machine (your Fuji Xerox machine)

Wi-Fi Direct network (supported models only)

Connect your mobile device to your Fuji Xerox machine using Wi-Fi Direct. Wi-Fi Direct allows you to configure a secured wireless network between your Fuji Xerox machine and a mobile device without using an access point.

1

1 Mobile device

2 Your Fuji Xerox machine

NOTE

When using Wi-Fi Direct, your Fuji Xerox machine supports only one-to-one wireless communication.

Printing from iPad, iPhone and iPod touch

The procedure used to print may vary by application. Safari is used in the example below.

- 1 Make sure your Fuji Xerox machine is turned on.
- 2 On your mobile device, use Safari to open the page that you want to print.
- 3 Tap .
- 4 Tap **Print**.
- 5 Make sure your Fuji Xerox machine is selected.
If a different machine (or no printer) is selected, tap **Select Printer**.
A list of available machines will be displayed. Tap your machine.
- 6 Select the desired options, such as the number of pages to print or 2-sided printing (if supported by your machine).
- 7 Tap **Print**.

NOTE

- Paper size and paper type are specified depending on the iOS application.
 - For Secure Function Lock feature supported models only:
Printing via AirPrint is possible even if Print for each user is restricted. To restrict printing via AirPrint, set the Secure Function Lock feature to Public Mode and then restrict Print for public.
-

Printing using OS X Lion v10.7 or later

NOTE

Before printing, add your Fuji Xerox machine to your Macintosh computer's printer list.

- 1 Select **System Preferences** from the Apple Menu.
 - 2 Click **Print & Scan**.
 - 3 Click the **+** icon below the Printers pane on the left.
 - 4 Click **Add Printer or Scanner**. The **Add** screen appears.
 - 5 Select your Fuji Xerox machine, and then select **AirPrint** from the **Use** pop-up menu.
 - 6 Click **Add**.
-

The procedure used to print may vary by application. Safari is used in the example below.

- 1 Make sure your Fuji Xerox machine is turned on.
- 2 On your Macintosh computer, use Safari to open the page that you want to print.
- 3 Choose **File** and click **Print**.
- 4 Make sure your Fuji Xerox machine is selected.
If a different machine (or no printer) is selected, click the **Printer** drop-down list and choose your Fuji Xerox machine.
- 5 Select the desired options, such as the number of pages to print and 2-sided printing (if supported by your machine).
- 6 Click **Print**.

NOTE

For Secure Function Lock feature supported models only:

Printing via AirPrint is possible even if Print for each user is restricted. To restrict printing via AirPrint, set the Secure Function Lock feature to Public Mode and then restrict Print for public users.

Sending Faxes (For DocuPrint M225 z/M265 z)

Sending faxes using OS X v10.8 or later

NOTE

- Before sending a fax, add your Fuji Xerox machine to your Macintosh computer's printer list.
 - 1 Select **System Preferences** from the Apple Menu.
 - 2 Click **Print & Scan**.
 - 3 Click the **+** icon below the Printers pane on the left.
 - 4 Click **Add Printer or Scanner**. The **Add** screen appears.
 - 5 Select your Fuji Xerox machine, and then select **AirPrint** from the **Use** pop-up menu.
 - 6 Click **Add**.
- Make sure that your Fuji Xerox machine is connected to the telephone line and works correctly.
- You can send only black and white fax documents using AirPrint.

The procedure used for sending faxes may vary by application. Apple TextEdit is used in the example below.

- 1 Make sure your Fuji Xerox machine is turned on.
- 2 On your Macintosh computer, use Apple TextEdit to open the file that you want to send as a fax.
- 3 Click the **File** menu, and then select **Print**.
- 4 Click the **Printer** drop-down list, and then select **Fuji Xerox DocuPrint XXXX Printer** (where XXXX is your model name).
- 5 Type the fax recipient information.
- 6 Click **Fax**.

NOTE

- Cover pages are not currently supported by OS X v10.8.
 - For Secure Function Lock feature supported models only:
Printing via AirPrint is possible even if Print for each user is restricted. To restrict printing via AirPrint, set the Secure Function Lock feature to Public Mode and then restrict Print for public users.
-

A

Troubleshooting

This chapter explains how to resolve typical problems you may encounter when using AirPrint with your Fuji Xerox machine.

If you are having difficulty with your machine

Difficulty	Suggestions
My Fuji Xerox machine is not displayed in the printer list.	Make sure your Fuji Xerox machine is turned on.
	Confirm the network settings (see <i>Network settings</i> on page 2).
	Move the mobile device closer to the wireless access point/router or to your Fuji Xerox machine.
I cannot print.	Make sure your Fuji Xerox machine is turned on.
	Confirm the network settings (see <i>Network settings</i> on page 2).
I'm trying to print a multiple-page document from iPhone, iPod touch, or iPad, but ONLY the first page is printing.	Make sure you are running the latest version of iOS. Refer to the following Apple support article for more information about AirPrint: http://support.apple.com/kb/HT4356

Enabling/Disabling AirPrint using Web Based Management (web browser)

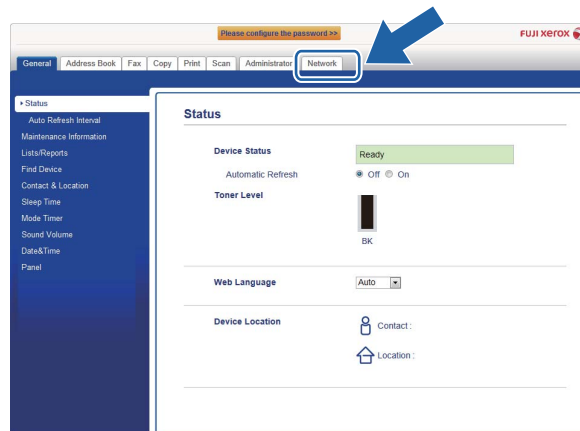

A standard web browser can be used to enable and disable the machine's AirPrint feature (it is enabled by default).

- 1 Confirm that the machine is connected to the same network as the computer.
- 2 Open the web browser on your computer.
- 3 Type “http://machine's IP address/” into your browser’s address bar (where “machine's IP address” is your machine’s IP address).
 - For example:
http://192.168.1.2/

NOTE

Your machine’s IP address is visible on its control panel under the **Network** menu.

- 4 If you have set a login password for Web Based Management, type the password in the **Login** box, and then click .
- 5 Click **Network**.

- 6 Click **Protocol** in the left navigation bar.
- 7 To disable **AirPrint**, deselect the **AirPrint** check box.
To enable **AirPrint**, select the **AirPrint** check box.
- 8 Click **Submit**.
- 9 Restart your Fuji Xerox machine.
