11.

As the default password of the Internet Services, use the character string printed on the rear panel of the machine and enter it as in the example.
For example, if the imprint on the rear panel were as shown in the illustration, the default password would be "AB1-123456".

作為 Internet Services 的預設密碼, 請使用印在機器後方面板上的字元字串, 並依範例格式輸入。
例如: 若後方面板標示如圖所示, 預設密碼即為「AB1-123456」。

作为 Internet Services 的初始密码, 请使用机器背面板上印刷的字符串, 并按示例格式输入。
例如: 如果背面板印刷内容如图所示, 初始密码即为 "AB1-123456"。

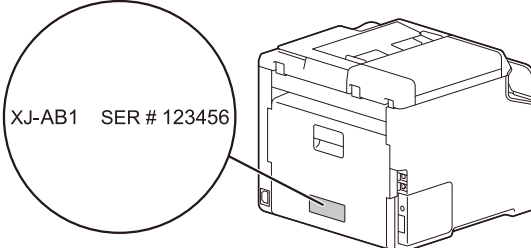

Internet Services 의 초기 패스워드는 본체 후면 패널에 인쇄된 문자열을 사용하여 예시와 같이 입력하십시오.
예를 들어, 후면 패널의 인쇄된 내용이 그림과 같다면 초기 패스워드는 "AB1-123456" 입니다.

รหัสผ่านเริ่มต้นของ Internet Services คือสตริงอักขระที่พิมพ์อยู่บนแผงด้านหลังของเครื่องและป้อนตามตัวอย่าง ตัวอย่างเช่น หากข้อความที่พิมพ์บนแผงด้านหลังเป็นตามที่แสดงในภาพประกอบ รหัสผ่านเริ่มต้นจะเป็น "AB1-123456"

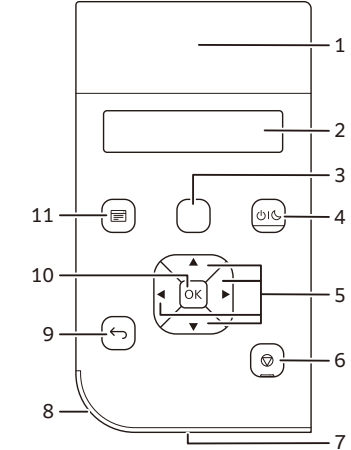

Mật khẩu mặc định của Internet Services là chuỗi ký tự được in trên bảng phía sau của máy và nhập theo ví dụ được hiển thị.

Ví dụ, nếu chuỗi ký tự được in trên bảng phía sau giống như hình minh họa, mật khẩu mặc định sẽ là "AB1-123456".

XJ-AB1 SER # 123456
